

## Vive Fruit & Vegetable Portfolio

# Get Targeted Protection with Vive's Easy-to-Use Fungicides and Insecticides

Enabled by Allosperse, AZteroid® FC 3.3 delivers long-lasting disease control and maximizes farming efficiency through best-in-class fertilizer compatibility.

Azoxystrobin + Allosperse • Group 11 • Compare to Quadris®

Averland® FC effectively suppresses mites during critical in-season stages, in an easy-to-use liquid miticide solution with an excellent safety profile.

Abamectin + Allosperse • Group 6 • Compare to Agri-Mek® SC

A superior foliar control solution for primary and secondary pests, Bifender® FC delivers greater convenience, flexibility and compatibility with a best-in-class user experience and a positive ROI.

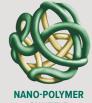

Bifenthrin + Allosperse • Group 3 • Compare to Brigade® WSB

#### PRECISION CHEMISTRY FOR REAL RESULTS

All Vive Precision Chemistry™ solutions contain Allosperse® Delivery technology, a unique proprietary nanopolymer shuttle that changes how proven chemical and biological active ingredients behave in the spray tank. Allosperse carries the active ingredient where it needs to go, simplifying crop production and delivering real results to growers.

ALLOSPERSE®
DELIVERY SYSTEM

Allosperse targets and optimizes the interaction between active ingredients, liquid fertilizers, micronutrients, biologicals, and other crop inputs to ensure product compatibility and performance is at its very best.
